
FINE APPARELS

INTRODUCTION

SINCE 2002

Fine Apparels is a manufacturer and exporter of knitted garments from Pakistan. Our primary goal is to give customers the best quality products on time, at the most reasonable price.

We are good at translating ideas, turning concepts into products — with the full technical, design, and merchandising capability to transform a top-end design into a popular commercial product with high perceived value and a realistic price point.
Production status is updated daily, and our on-site quality controllers ensure every order is cared for from raw materials through to packing.
